ABOUT ME

I am a professional web application developer, and multimedia expert. I have 5+ years experience in application development and multimedia. I enjoy working on a range of projects both frontend and backend and I am always eager to learn new frameworks and languages to broaden my skills.

AREAS OF EXPERTISE

- Client-Server based applications developed using Javascript, HTML, CSS, PHP, ASP, Visual Basic
- JSON configured applications
- Custom MVC design
- RESTful API implementation and creation
- Object Oriented Design patterns
- Designer's eye for strong front-end GUI development and user experience
- Strong Analytical and communication skills
